

Healthful & Warm Bed

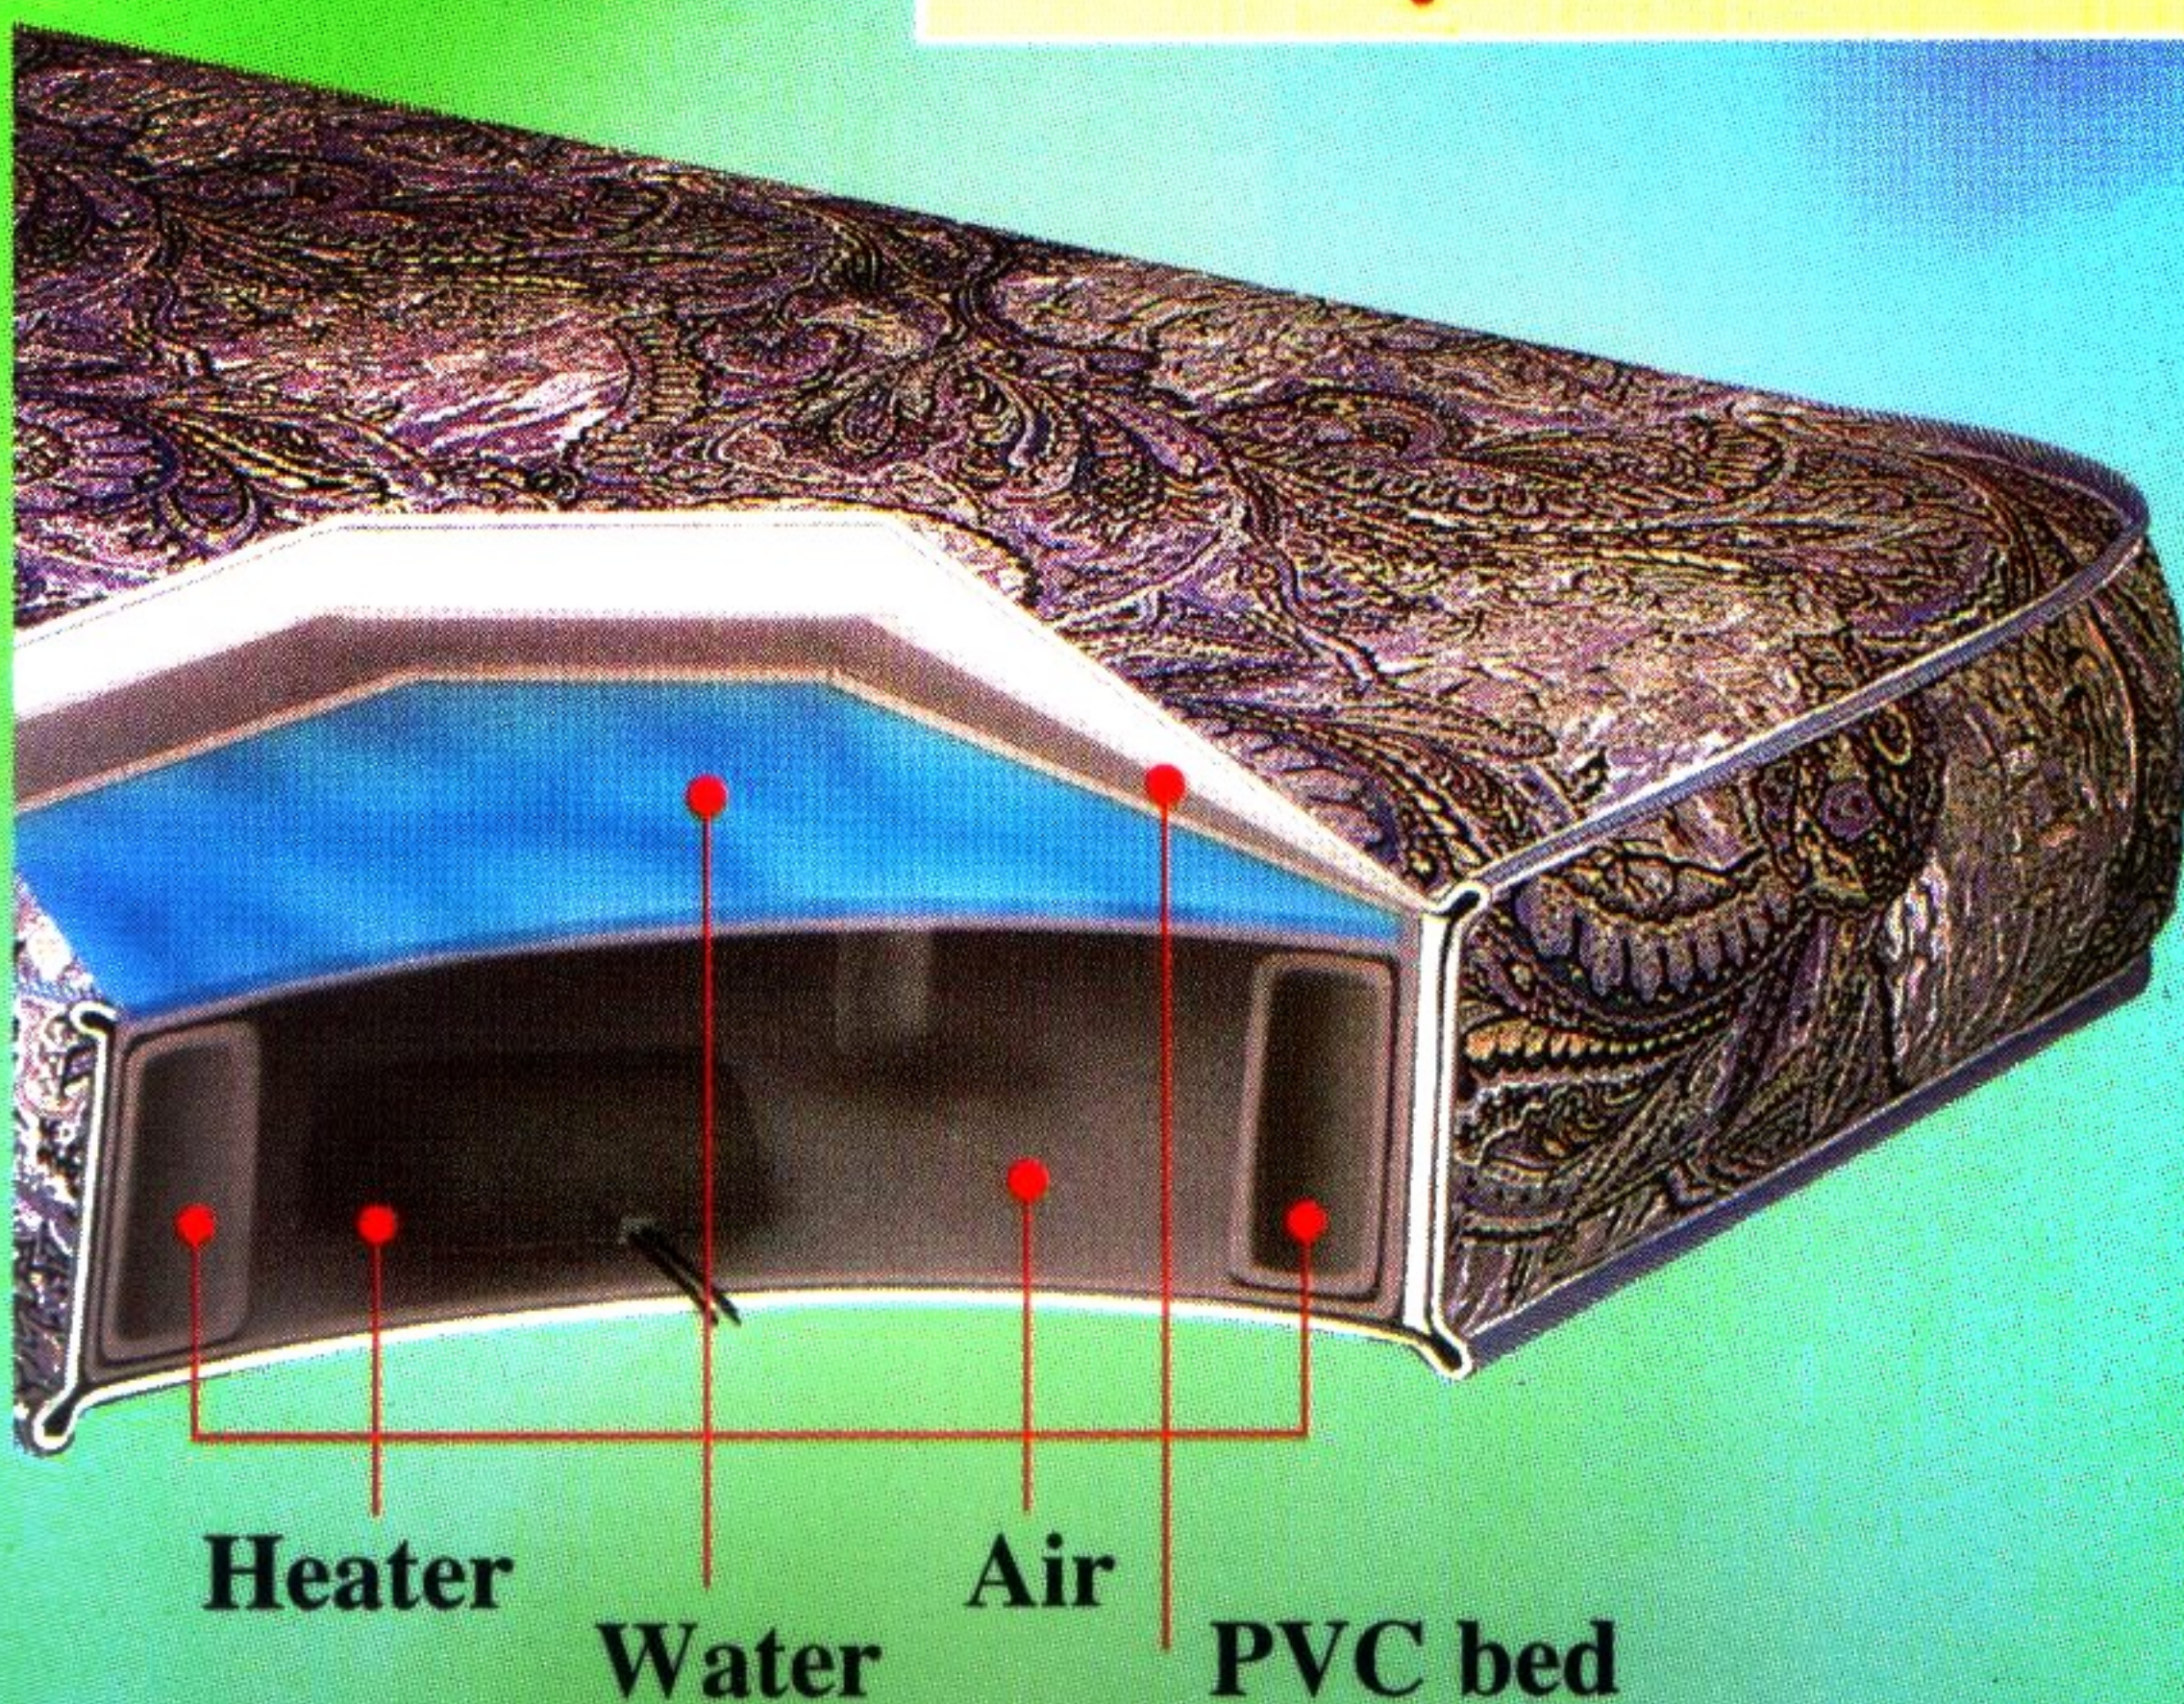

The **Relax Healthful & Warm Bed** has an internal heat source to emit Far Infrared radiation in order to:

1. Improve Blood Circulation
2. Accelerate Body metabolism
3. Cleanse harmful elements in the body

Who should use the Relax Healthful & Warm Bed?

People with ailments related to poor blood circulation such as high blood pressure due to high cholesterol and sugar levels, low blood pressure due to poor metabolism, as well as those with back problems due to rheumatism and arthritis. Other ailments applicable are asthma, migraine, hemorrhoid, diabetes, insomnia, constipation. Even people who are in good health but are under constant stress due to fatigue or poor working environment. The Far Infrared heat dilates your blood vessels to relieve stress and invigorate your whole body. You will feel totally relaxed after a good night sleep.
